

ULTIMATE TEXAS HOLD'EM

Features heads-up play against the dealer and an optional bonus bet. This game gives the player several advantages:

- The earlier a player bets, the more he/she can bet.
- Players don't have to fold until they see all the community cards.
- The Trips bonus pays odds if a player's final five-card hand is a three of a kind or better.

GETTING STARTED

Players make equal bets in the Ante and Blind circles. Players may also make the optional Trips bonus bet. Two cards will then be dealt.

BET BIG... OR SMALL... OR NOT AT ALL

When the two hole cards are dealt, players can either check or bet 3x or 4x their Ante. The dealer then reveals the three-card flop. If a Play bet has not been made, players may check or bet 2x their Ante. The dealer then reveals the final two community cards. If a Play bet has not been made, players may fold or bet 1x their Ante.

WINNING & LOSING

The dealer then reveals his/her two hole cards and announces his/her hand. If the player's hand beats the dealer's, his/her Play and Ante bets win even money. If the dealer's hand wins, the player's Play, Ante and Blind wagers lose. If there is a tie, those bets push. The Blind pays if the player's winning hand is at least a Straight (see payout for odds). If the player beats the dealer with less than a Straight, it pushes.

DEALER QUALIFYING

The dealer needs a pair or better to qualify. When the dealer doesn't qualify, he/she returns the Ante. All other bets receive action.
